

# MIDDLETON HEALTH DEPARTMENT

## FORM B APPENDIX: BEDROOM / HABITABLE ROOM CALCULATION SHEET

Property Location: \_\_\_\_\_

In order for the Health Department to signoff on your building permit, **this form must be completed** in order to assess if your subsurface sewage disposal system (a.k.a: Septic System) is sized appropriately for the number of bedrooms / habitable rooms. According to Title V, design flows of your septic system are based on the number of bedrooms/habitable rooms according to the total number of rooms (not just bedrooms); however, not including bathrooms, hallways, unfinished cellars, 3-season porches, and unheated storage areas.

Please check off the number of existing and proposed rooms below and the Health Department will calculate the number of habitable rooms with a formula that will determine if your septic system is sized accordingly to the number of rooms.

PLEASE NOTE THAT THAT IF WE CALCULATE THE NUMBER OF ROOMS TO BE OVER THE DESIGN FLOW, THIS DOES NOT WARRANT AN UPGRADE OF YOUR SYSTEM, ALTHOUGH THAT IS AN OPTION YOU CAN CHOOSE; HOWEVER, A DEED RESTRICTION CAN BE EXECUTED LIMITING YOUR DWELLING TO THE NUMBER OF BEDROOMS THAT YOUR SYSTEM WAS DESIGNED FOR (THIS IS VERY EASY TO ACCOMPLISH).

**ANY PROPOSED INCREASE IN THE NUMBER OF BEDROOMS ABOVE THE ORIGINAL DESIGN FLOW REQUIRES AN UPGRADE OF THE SEPTIC SYSTEM. MAJOR ADDITION OF ROOMS (NOT BEDROOMS), MAY REQUIRE AN OFFICIAL TITLE V INSPECTION.**

Indicate the number of rooms that will include the rooms you plan to build within your building permit.

TYPES OF ROOMS: (Not limited to)	#	TYPES OF ROOMS con't: (Not limited to)	#
BEDROOMS		WORKOUT ROOMS	
KITCHENS		RENTAL/ACCESSORY APARTMENT	
LIVING ROOMS		BASEMENT ROOM (other than listed previously)	
FAMILY ROOMS			
DINING ROOMS		<b>OTHER ROOMS (not listed):</b>	
OFFICES			
PLAYROOMS			
RECREATION ROOMS			

**Signature required: I certify the information listed above is accurate to the best of my knowledge**
