DEATHS	
Attributed to COVID-19	5

COVID-19 WEEKLY REPORT

HOPE DURING THE PANDEMIC

We also want to bring **HOPE** during the pandemic and with permission, we bring a story of HOPE within Middleton. As you can see from the numbers, **we currently have 50 residents who have recovered from COVID-19. 1 of the 50 residents is named Joe!** Joe, a husband, father of three, and local sports coach and hockey team owner, fell quickly ill to the virus. Joe in his healthy 40's, didn't meet the typical data statistic for age and/or underlying conditions where the virus takes a severe attack; however, for Joe it did. From experiencing a sore throat, to quickly changing to trouble to breath, to an ambulance ride to Beverly hospital, to being placed on a ventilator and intubated within the same day, shows how serious we must all take this virus.

We are happy to report that Joe, was able to battle the virus and **recover!** To date, he's almost recovered 100%. Joe and his family are thankful for the community support, Fire/EMS for transport, our medical professionals, and our public health department who all played in part of his recovery process along with everyone's thoughts and prayers when he was hospitalized.

COMMUNITY INFORMATION FULLER MEADOW SCHOOL

Students and their teachers have been working diligently on their remote learning, and while it isn't necessarily our preferred method of teaching, we are getting the job done together as a team! Teachers are creating videos and lesson plans and students are working at home with their parents, siblings, and pets! The use of SeeSaw at FM and Google Classroom at HM has been so helpful in organizing and pushing out work to students. Check out [this video](#) of our MPS staff at work, created by our Digital Learning Specialist, Dierdre Baker.

Kindergartener, Michael McGrath doing a science experiment!

First grader, Vincent Ortins, ready for online learning, and hat day!

Kindergartener, James Radwanski doing his remote learning while his young siblings learn along with him!

- To Screen Symptoms Visit: www.bouyhealth.com
- Be especially careful around high-risk individuals, such as the elderly and individuals with underlying health conditions.
- Properly Notify EMS/Fire and Police if you seek assistance from them and you or a household contact are symptomatic and/or are COVID-19 positive.
