COVID-19 & HALLOWEEN

Many common Halloween activities can be higher risk for spreading viruses. There are other, safer ways to still celebrate Halloween!

Lower Risk Halloween Activities

Cook these Ghostly Mini Pita Pizzas together as a family! (find the recipe here: <https://to.pbs.org/3nlFv0l>)

Carve or decorate pumpkins outside, 6 feet apart, with neighbors or friends!

Scoop out pumpkin seeds, separate seeds, toss with 2 tsp vegetable oil, sprinkle with salt and bake at 325 degrees F for 20-30 minutes!

Do a Halloween scavenger hunt where children are given lists of Halloween-themed things to look for while they walk outdoors, admiring Halloween decorations at a distance!

Have a virtual Halloween costume contest!

Have a trick-or-treat search with your household members in or around your home (rather than going house to house)!

Have a Halloween movie night and a popcorn snack with people in your household!

Decorate your living space as a family!
