He added that he is very proud of what everyone did over the past year and he is looking forward to getting back to normal.

7:21 PM Public Comment Period:

- Frank Twiss, former fire chief and member of the Master Development Planning Committee, thanked the voters for approving the South Main Street project. 7:24 PM Legislative Delegation: Senator Bruce Tarr, Representative Sally Kerans, and Representative Bradley Jones: Representative Sally Kerans and Representative Brad Jones were in attendance. Chair Cresta noted that the Senate is presently in session and Senator Tarr was tied up with that, but hoped to make it to the meeting.

- **Representative Brad Jones:** Rep. Jones congratulated Kosta Prentakis on his re-election and to Jeff Garber for his election to the Board. PILOT payments was discussed as a form of mitigation.

- **Senator Bruce Tarr:** Sen. Tarr advised there are mitigation funds for hosting prisons, in addition to PILOT payments. He will work with Rep. Kerans and Rep. Jones to build a case. A lengthy discussion ensued on solving the issue.

Jones that they are getting an increase in calls about traffic on Route 114 and asked about engaging with the Dept. of Transportation to look at the corridor of Route 114 and do a comprehensive study on the traffic. Rep. Jones will see if he can get some district people out to look at it.

7:57 PM Review Correspondence Regarding Naming of a Subdivision Way at 123 River Street: Chair Cresta advised that the person they were going to name the subdivision after respectfully requested that his name not be used for the street. 9. If the Town has accepted the provisions of G.L. c.53, §18B, a certified copy of the vote of the Town Meeting accepting the provisions of G.L. c.53, §18B. Please advise us if the Town has not accepted the provisions of G.L. c.53, §18B.

10. A certified copy of the vote of the Select Board placing on the ballot for the June 12, 2021 annual town election the question of whether to exempt payments of debt service on the bonds from the annual tax limitation, pursuant to G.L. c.59, §21C(k), with evidence of its passage by a two-thirds vote of the entire board at a regular or duly called special meeting of the board.

11. A certified copy of the warrant calling the election, together with a certified copy of the return of service showing how and when notice of the election was given.
12. A certified copy of the ballot used at the election.
13. A certificate of the Town Clerk showing the results of the vote to exempt the bond issue.

16. A certified copy of any leases, licenses, contracts or other arrangements with third parties, including (but not limited to) management and operation contracts or arrangements pertaining to the operation of cafeterias or food services, the placement of solar panels, wind turbines or wireless equipment on the buildings to be constructed with the proceeds of the bonds, or use of space in such buildings on terms that are longer than 50 days per contract, presently in effect or contemplated by the Town relating to the municipal complex buildings to be constructed with the proceeds of the bonds, or a certificate from an appropriate Town official stating that the Town has no contract or other arrangement, and will not have any contracts or arrangements that are not applicable to the general public under which a party (other than the Commonwealth, but including the federal government and any non-profit entity) is to have the use of the municipal complex buildings to be constructed with the proceeds of the bonds. If the Town is contemplating entering into one or more of the arrangements described above, please advise us of the nature (purpose, payment options, etc.) of the arrangements being contemplated and provide a copy of the current version of the contemplated arrangement.
17. Debt statements in the enclosed form dated as of June 5, 2021 and June 12, 2021.
18. A draft of the offering material for the bonds, including the notice of sale and accompanying financial and descriptive information concerning the Town. Although we take no responsibility for the accuracy or adequacy of the offering material, we request an opportunity to see it substantially in advance of its use.

Examination of these items may reveal the need for additional papers.

We assume that the Town has not voted to exempt debt service payments on the equipment bonds from the tax limits of Proposition 2½. We also assume that no federal or state aid is

expected in connection with equipment projects. We should be advised promptly if either assumption is incorrect.

Under federal tax law bonds may be private activity bonds (the interest on which may be taxable) where benefits and costs of the project being financed are substantially transferred to commercial, industrial or other private users or if certain contracts or special arrangements exist for the use of any project financed by the bonds. For this reason, we assume and plan to confirm in the closing documents to be signed at the time the bonds are issued, that:

(a) Other than as provided to us in response to this letter, the Town does not have or plan to have any contract or other arrangement not applicable to the general public under which a party (other than the Commonwealth or a local governmental unit) is to have the use of a particular project financed by the bonds, or is to make payments based on costs of the project.

If this is not the case, we should be promptly advised so that we can explore the matter further.

If any funds are to be advanced for any of the projects and reimbursed from bond proceeds, please note the requirements of G.L. c.44, §20A and the guidelines issued by the Director of Accounts. We assume that no funds to be reimbursed from bond proceeds were advanced for any of the projects prior to the adoption of the votes authorizing the bonds. In addition, federal tax law contains rules regarding when the use of bond proceeds to reimburse a borrower for expenses previously incurred will be treated as an expenditure of bond proceeds for tax purposes. Generally, the Town must issue bonds or notes for the purpose of reimbursement of expenditures previously made by the later of either (a) 18 months after the expenditure was paid or (b) 18 months after the project financed by the expenditure was placed in service, but in no event later than 3 years after the original expenditure. Unless we are otherwise advised, we assume and plan to confirm in the closing documents that:

(b) None of the proceeds of the bonds are being used to reimburse the Town for expenditures previously made from funds other than proceeds of a borrowing and no expenditures to be reimbursed with bond proceeds were made prior to the adoption of the votes authorizing the bonds.

If this is not the case, we should be promptly advised of the Town's intent to use proceeds of the issue for reimbursement and of the date of the earliest expenditure for each project.

We are also making the following assumptions which we plan to confirm by including appropriate statements in the closing documents:

(c) Other than as provided to us in response to item 2 above, the Town has not further amended its home rule charter since the amendments certified to us as of August 13, 2015 and the Town has not amended or repealed any special law relating to the Town through the use of home rule procedures except by adoption of the charter.

(d) Other than as provided to us in response to item 2 above, the following bylaws are the only bylaws or standing votes of the Town affecting the authorization, sale or issue of the bonds, including calling and conduct of town meetings, or the use of

assessments or other charges imposed to pay for any project financed by the bonds and there has been no amendment or addition thereto affecting those matters in any way except as indicated:

General bylaws compiled of the Town as certified to us on July 10, 2020.

(e) Other than the town meeting called pursuant to G.L. c.39, §10 at which the bonds were authorized all proceedings essential to the issue of the bonds will have been taken at meetings open to the public; notice of each meeting will have been filed and posted in the time and manner set forth in the General Laws, as amended, in effect at the time of each meeting (Chapter 39, §23B for proceedings occurring prior to July 1, 2010 and Chapter 30A, §§18-25 for proceedings occurring on or after July 1, 2010) or, if applicable, in accordance with an alternative method of notice prescribed or approved by the Attorney General as set forth in 940 CMR 29.03(2)(b); no deliberations, decisions or votes relating to the bond issue will have been taken in executive session and no vote was taken by secret ballot; and the official record of each meeting will have been made available to the public as set forth in G.L. c.39, §23B or c.30A, §§18-25, as amended, further suspended, supplemented or modified by the Executive Order of the Governor of The Commonwealth of Massachusetts Suspending Certain Provisions of the Open Meeting Law, Chapter 30A, §20 dated March 12, 2020, as applicable.

(f) The Town has not established any development districts pursuant to G.L. c.40Q.

If any of these assumptions is incorrect or becomes incorrect before the bonds are issued, we should be notified promptly.

Enclosed is a copy of a memorandum entitled "Role of Bond Counsel", which describes our services. As noted in the memorandum, we would be pleased to discuss it if you have any questions concerning it.

For our final opinion we shall need the usual signature, no litigation and official statement certificate, tax certificate, continuing disclosure certificate, IRS Form 8038-G, and Select Board's vote, and an opportunity to examine a bond as executed. We will provide you with the forms of necessary closing documents prior to the closing of each bond issue.

Yours faithfully,

Role of Bond Counsel

Introduction. Municipal finance is in a period of accelerating change, increasing complexity and expanding disclosure. In the face of these developments we think it is useful to describe the role of bond counsel so as to avoid any misunderstanding as to what the bond counsel has and has not undertaken to do. We have written this memorandum to set forth what we do when we act as bond counsel for counties, cities, towns and other political subdivisions on general obligation bonds and notes. Our role may be changed from that set forth in this memorandum by special agreement between the client and Locke Lord LLP (“Locke Lord”).

Bond counsel services. The services offered by Locke Lord as bond counsel include such of the following as may be needed, upon request by the issuer or by a financial advisor on behalf of the issuer:

1. Preliminary advice with respect to the legal feasibility of proposed financings and the permitted maturities and applicable procedures.
2. Drafting or review of legislation authorizing the issuance of bonds or notes. Drafting or review of corrective or validating legislation where required.
3. Preparation of a request for an advisory court opinion, or pleadings for a test case, where required. Research and preparation of briefs.
4. Where a new entity is needed for the issue, such as a regional or special purpose entity, advice and assistance in its organization, including the drafting of a charter or governing agreement and by-laws.
5. Advice and assistance, including drafting, with respect to charter, ordinance, by-law or other amendments relating to the issue of bonds or notes.
6. Drafting of proceedings authorizing the issuance of bonds or notes.
7. Review and advice with respect to the tax-exempt status of the bonds or notes under federal and state law.
8. Preparation of requests for tax rulings where required and attendance at conferences with Internal Revenue Service representatives.
9. Preparation of a requirements letter setting forth the documents required to evidence the lawful issue of the bonds or notes.

10. Drafting of the required certifications and other documents (including the no arbitrage and tax exemption certificates and reporting forms under the Internal Revenue Code of 1986 and U.S. Treasury regulations).

11. Consult with the parties to each transaction prior to the issuance of the bonds or notes.

12. Review of the certified proceedings and other executed documents to determine the validity and tax-exemption of the bonds or notes.

13. Review of the notice of sale or purchase contract and other non-disclosure related materials and proceedings providing for the sale of the bonds or notes to determine compliance with applicable legal requirements.

14. Undertake such additional duties as we deem necessary to render an approving opinion of the bonds or notes.

15. Subject to the completion of proceedings to our satisfaction, rendering an opinion as to the validity of the bonds or notes and their exemption from federal and state income taxes and local property taxes.

If special arrangements are made, we also undertake to perform the additional services described under Disclosure below.

Fees. In the absence of special circumstances, the fee for a particular issue of bonds or notes depends on the type and size of issue. If an issue is not completed, Locke Lord reserves the right to bill for the work actually done but does not ordinarily do so in the case of a continuing client if the work has not been substantial. For work not relating to a particular bond or note issue, the fee would be based on the time involved, at our hourly rates as in effect from time to time, and the novelty of the issues presented. Again, in the case of a continuing client, if this work is not substantial, Locke Lord ordinarily sends no bill.

For transactions involving special tax complications, IRS audits of outstanding bonds and the like, we would be prepared to provide a not to exceed fee quote as a particular transaction presents itself.

Our fees for the issuance of bonds and notes are currently as follows and are subject to revision from time to time. For the issuance of bond anticipation notes of \$1,000,000 or less our fee is \$3,100, which would also be charged upon each renewal of the bond anticipation note prior to its issuance as a long term bond. For bond anticipation note issues in excess of \$1,000,000, our fee is \$3,100, plus \$0.50 per thousand issued. For each issue of long term bonds, our fees would be as follows: for issues up to \$7,000,000 our fee is \$3.50 per thousand issued, for issues between \$7,000,000 and \$20,000,000 our fee is \$25,000, plus \$1.00 per thousand issued in excess of \$7,000,000, for issues in excess of \$20,000,000, our fee is \$38,000, plus \$0.75 per thousand issued in excess of \$20,000,000. Each fee is subject to additional charges for advance refundings, special tax benefitted obligations, and to cover time allotted to the matter. If you can advise us of the level of anticipated reimbursement and the anticipated plan of finance (*i.e.*, the

numbers and sizes of each note and bond issue), we would be pleased to provide you with a more specific estimate of issuance fees based on the foregoing schedule. For the provision of a “green light letter” to the Department of Revenue’s Division of Local Services to permit the issuance of state house notes, our fee would not exceed \$3,500. If, at any time, we believe that circumstances require an adjustment of our fees, we will notify you. Our fee is usually paid at the closing of a bond or note issue, and we customarily do not submit any statement until such closing unless there is a substantial delay in completing the financing.

Disclosure. Under federal and state securities laws primary responsibility for disclosure rests with the issuer and its officials who participate in the sale of the obligations or in providing information for inclusion in the Official Statement or other offering literature. Unless special arrangements are made, and except as described below, the scope of Locke Lord’s engagement as bond counsel does not extend to passing upon or assuming any responsibility for the accuracy or adequacy of the Preliminary Official Statement, the Official Statement or any other offering literature (other than statements of legal matters specifically attributed to Locke Lord with the consent of Locke Lord) and any review undertaken by Locke Lord is undertaken solely for its own protection from potential liability under federal and state securities laws. To this end, an appropriate legend as to the scope of Locke Lord’s engagement will need to be included in the Preliminary Official Statement, the Official Statement, or any other offering literature.

If special arrangements are made, Locke Lord is prepared to offer the following additional services:

16. Review and assistance in the preparation of the Preliminary Official Statement and the Official Statement used by the issuer in the sale of the bonds or notes, including examination of the historical and projected financial experience of the issuer (in reliance upon financial and statistical data furnished by the issuer), together with research with respect to, and drafting of portions of the Official Statement relating to, the legal and fiscal structure of the issuer, its debt management, budgeting and accounting procedures, and material economic and demographic data.

17. Participation in conferences with officers of the issuer and others where appropriate and preparation and review of certificates or letters of such persons verifying representations made in the Preliminary Official Statement and the Official Statement.

18. Rendering a supplemental opinion to the underwriters and the issuer to the effect that we have assisted in the preparation of the Preliminary Official Statement and the Official Statement (other than the financial and statistical data mentioned above and other customary exceptions) and that, although we have not undertaken to verify the same, no material misstatement or omission has come to our attention.

In order to perform the services referred to in items 17 and 18 in a timely and effective fashion we should also be engaged to participate actively in the preparation of the Preliminary Official Statement and the Official Statement as outlined in item 16 subject to appropriate variation in individual cases.

The additional services described in items 16 to 18 require substantial time and involve substantial responsibility. Arrangements should be made for these services well in advance. These additional services will necessitate significant additional fees, for which estimates will be given upon request.

State Securities Laws. Where offering literature should be filed by the issuer with a state agency pursuant to a State securities law (*e.g.*, Mass. G.L. c.110A, s.403), the normal practice is for the financial advisor to make the filing on behalf of the issuer.

Opinions and Certifications. In performing our services as bond counsel, our client will be the municipality issuing the bonds or notes and we will represent its interests. We assume that other parties to the transaction will retain such counsel as they deem necessary and appropriate to represent their interests in the transaction. Our representation of the municipality issuing the bonds or notes does not alter our responsibility to render an objective opinion as bond counsel.

In rendering our opinions, we will rely upon the certified proceedings and other certifications of public officials and other persons furnished to us without undertaking to verify the same by independent investigation. Responsibility for the accuracy of certificates relating to an issue of bonds or notes rests with the signing officer or officers, who should carefully read all such certificates which they have not themselves prepared. The drafting by Locke Lord of forms for certification (such as but not limited to a general certificate, tax certificate, certificate as to official statement and continuing disclosure certificate) does not constitute a representation by Locke Lord to the signing officer or officers or others as to the accuracy of any factual matters or estimates set forth in the forms.

Our opinions will be executed and delivered in written form on the closing date when the related bonds or notes are exchanged for their purchase price and will be based on facts and law existing at that time. Following the delivery of our opinions, we will not undertake (unless separately engaged) to provide continuing advice to the client or any other party concerning (a) any actions necessary to assure that interest paid on the bonds or notes will continue to be excluded from gross income for federal income tax purposes or (b) any actions necessary to assure compliance with continuing disclosure obligations to SEC Rule 15c2-12. We would be happy to provide such advice from time to time upon request and we expect that an acceptable fee arrangement would be determined at that time.

Conclusion. We would be pleased to discuss any matter raised in this memorandum with any of our clients and to work out any variation which may be considered necessary or desirable for any particular financing.
